

## Colonnade table

Designer: Komplot Design

Colonnades have a light and airy feel, but they are also strong and stable structures. From small tables for one to larger layouts for forty people - or more.

Tables for formal or informal meetings. Meetings without technical equipment or meetings where state-of-the-art technology is built into the room and furniture. Soft, organic shapes and materials, and surfaces with good tactile qualities. Beautiful, but nonetheless anonymous, as a table should be.

Colonnade table - Conference 11 - 300x128 cm, laminate 411/black core.

### Info:

The table system is available with C-BOX. C-BOX is available with optional installation. Colonnade is also available in a height-adjustable version (65-130 cm). See additional charge for height adjustment function per base.

### Measures:

See the Convent system layout (PDF).
