20 Babila Tecnopolimero

Art. 2730 – 2740 – 2750

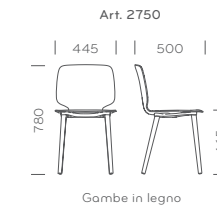

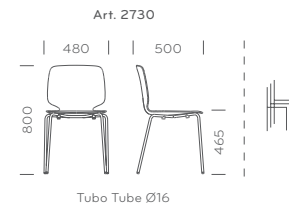

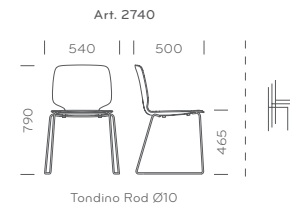

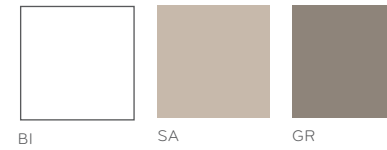

La scocca della sedia Babila in tecnopolimero richiama il disegno della versione in legno ma sfrutta l'elasticità e la tridimensionalità del materiale plastico per offrire il massimo comfort.

Una delicata modanatura caratterizza la parte posteriore dello schienale. Proposta con telaio in metallo, impilabile, è disponibile anche nella versione che abbinava il materiale plastico della scocca alle gambe in legno.

The shell of the technopolymer version recalls the wooden chair but takes full advantage of elasticity and three-dimensionality of the plastic material, in order to offer the greatest comfort.

A delicate moulding characterizes the back. Beside the stackable metal frame, it is available with an interesting combination of technopolymer and ash wood legs.
