ACOUSTIC HIGHER DESIGN | GREATER FLEXIBILITY | BETTER QUALITY

Limbus[®] by  GLIMAKRA
OF SWEDEN

"Our investment proved very good!"

Limbus by Glimakra is a family of products with focus on acoustics and design. First was the Desk-up screen and the Floor screen that was presented in 2013. With LimbusDesk-up screen and LimbusConcept, we have given many projects a character that breathes design, quality and flexibility whilst resolving the acoustic conditions found in modern premises.

"Now we are taking the next step!"

The increasingly popular activity based office requires new solutions on how furniture can help to create rich working environments for different types of tasks. We can now offer a complete concept design terms ranging from the acoustic reception to the modern workplace. We have now developed many new products to meet the market needs inside the Limbus product family.
